Contact: +8801829465646

Address: Love-Lane, Chittagong

Career Objective:

Curious and development-focused Computer Science student with a strong foundation in front-end development and emerging expertise in Machine Learning, Federated Learning and Explainable AI. Skilled in building intuitive web applications using React and modern JavaScript frameworks, while actively exploring AI solutions in healthcare-focused systems. Committed to combining software engineering skills with AI-driven innovation to create impactful, scalable, and user-focused products, with a long-term goal of becoming a versatile software engineer and AI practitioner.

Skills:

- **Technical Skills:** **Language:** React.js, CSS, Tailwind CSS, HTML, Node.js, Express.js, MongoDB, Git, SQL, Microsoft Word, Microsoft Power Point, Programming Languages: JavaScript, C, C++, Python.
- **AI & Data Science:** Machine Learning, Deep Learning, Explainable AI (LIME, SHAP), Federated Learning.
- **Soft Skills:** Leadership, Effective Communication, Collaborative Mindset, Agility in Change, Innovative Thinking, Creativity.
- **Problem Solving Skills:** I have solved around 200 problems in [Codeforces](#) and [Leetcode](#).

Projects:

MediTrack

Source Code: [Github](#)

A responsive web application designed to digitize medical consultations and securely manage e-prescriptions through role-based dashboards for doctors, patients, and administrators.

- **User Authentication & Security:** Implemented secure login and access control using JWT authentication, bcrypt password hashing, and role-based access control (RBAC).
 - **Doctor Portal:** Enabled doctors to create consultations, prescribe multiple medicines, generate downloadable PDF e-prescriptions, and view patient history.
 - **Patient Dashboard:** Built a personalized interface where patients can access their consultation records and prescription history using a unique Patient ID.
 - **Admin Panel:** Developed admin functionalities for onboarding verified doctors and managing system roles and permissions.
 - **Technologies Used:** React.js, Tailwind CSS, JavaScript, MongoDB, Express.js, Node.js, JWT, bcrypt, jsPDF
-

Study-Plan

Source Code: [Github](#)

A web application designed to help students organize their study schedules, manage semester-wise tasks, and track academic progress through personalized dashboards.

- **Task & Semester Management:** Create, update, and track tasks across different semesters or subjects.
 - **Dashboard:** Personalized dashboards for students to visualize tasks, upcoming deadlines, and progress.
 - **Responsive UI:** Clean and intuitive interface for seamless navigation and task management.
 - **Technologies Used:** React.js, Tailwind CSS, Javascript, Mongodb, Express.js, Node.js, Firebase, JWT
-

Education:

2022 - Present	Bachelor of Science in Computer Science and Engineering , Chittagong University of Engineering and Technology (CUET), CGPA – 3.79(Until 7 th semester)
2018-2020	Higher Secondary School Certificate , Chittagong College, Chittagong, GPA - 5.0, Group Science
2016-2018	Secondary School Certificate , Chittagong Govt. High School, Chittagong, GPA - 5.0, Group Science

Languages:

Bangla - Native

English - Fluent

Extra Curricular Activities:

- Currently working as a **Publication Secretary** at **IEEE CS CUET Student Branch Chapter**
 - Currently working as a **Deputy Finance Secretary** at **CUET COMPUTER CLUB**
 - Currently working as a **Joint Publication Secretary** at **JOYODDHONEY,CUET**
 - Former **HEAD of LOGISTICS** at **HULT Prize at CUET** for 2024-'25 session
-
